

FRANKE PRODUCT CATALOGUE -2021

FRANKE

is Swiss

Let everyone else be ordinary. Let's make it wonderful.

An aerial photograph of a large industrial or commercial complex. The complex features several large, interconnected buildings with flat roofs, some of which are brown and others grey. A prominent building in the center has a large red and white sign on its side. There are extensive parking lots filled with cars and trucks, particularly in the central and lower-left areas. The complex is surrounded by green fields and some residential buildings in the background. A road or railway line runs along the bottom edge of the image.

Since 1911, Franke has been known for its dedication to research, development, manufacture and service. Today, it is one of the world's leading suppliers of kitchen sinks, taps, cooking hobs and extractor hoods.

GLOBAL FOOTPRINT

The Artemis Group includes the Franke Group, the Artemis Real Estate Group (real estate portfolio in Switzerland and abroad), a majority holding in the Feintool Group (world market leader in fineblanking technology) and the Artemis Asset Management Group (various strategic shareholdings in international companies listed on the Swiss stock market and in private companies). Franke is a world leading provider of products and solutions for residential kitchens and bathrooms, professional food service, coffee preparation and semi-/public washrooms. The Artemis Group has about 9,200 employee in 72 countries, 5 continents. In 2020, the group generated consolidated Net sales 2.42 billion CHF.

ADVANTAGE FRANKE - High Grade Materials

TECTONITE®

Made in The Netherlands.

TECTONITE® is the latest innovation by Franke – made of TECTONITE®, which is a hi-tech, light but strong synthetic material that gives you amazing advantages:

- It is extreme temperature resistant (230-300 degrees)
- It is scratch resistant and has a super smooth and easy to clean texture
- It is resistant to chemicals used in the kitchen (vinegar, tomato sauce, etc.)
- It has a UV resistant coating (its colour will not change)
- It is a 100% recyclable material
- It is available in three high tech colours: carbon black, arctic white and coffee
- It has a five year warranty

TECTONITE® Technology

Beautiful and Strong

A great looking and smooth surface, the TECTONITE® material prevents scuffing or scratching. It is also easy to clean and doesn't lose colour.

3rd Generation Coating

A new coating called PiMC (Power in Mold Coating) gives a protective layer providing strength to the material and protecting its colour.

Exclusive Texture

It is finished with an exclusive texture that coats the sink and repels water and dirt to keep the surface looking as good as new.

AUSTENITIC STAINLESS STEELS (SS 304 - AUSTENITIC GRADE)

All Franke Stainless steel sinks are manufactured using only SS 304 Austenitic grade. Austenitic stainless steel are chromium & nickel containing stainless steel with very low carbon content. Austenitic 304 stainless steels formed through the generous use of austenitizing elements such as nickel, manganese and nitrogen. Chromium content is range of 18% and nickel content in range of 8%. They are non-magnetic but can become slightly magnetic when cold worked. Cold working also enhances their strength. Austenitic stainless steel have mechanical properties over a wide range of temperatures. In addition, these steel are easy to clean, which enhances their use in applications in hygienic and sterile environments.

AISI
18/10
SS304

18/10: 18% Chromium and 10% Nickel

This material is used in Neptune

AISI
18/8
SS304

18/8: 18% Chromium and 8% Nickel

This material is used in 610/611, 620, 621, 651 and Adrian Series

SUPERIOR FINISHES & PERFORMANCES

Microdecor Finish

The distinctive pattern of Microdecor steel is so light as to be almost invisible, recalling the effect of aluminum and giving the steel a unique, inimitable appearance. Any scratches only damage the tiny convex areas of the surface, while the imperceptible concave zones prevent the formation of visible marks.

European Satin Finish

Franke uses a unique process of brush polishing on CNC controlled latest technology machine along with special "Franke" ATL-F22 paste that gives product surface a smooth European Satin finish with good aesthetic look. This makes it best suitable for all kitchen applications since it is prone to scratching during daily usages.

WARRANTY

25 Year Warranty

All Franke Stainless Steel Sinks are guaranteed for 25 Year against faulty workmanship and material.

5 Year Warranty

All Franke Color Sinks are guaranteed for 5 Year against faulty workmanship and material.

1 Year Warranty

All Franke Taps, Bio Waste Disposer, Plumbing Kit , Roller Mat and Accessories are guaranteed for 1 Year against faulty workmanship and material.

DISCLAIMER

The overall sizes & bowl sizes indicated are in mm and inches, Which are rounded off to the nearest decimal. For Granite Cutting please refer the dimensions from actual product only. Franke will not be responsible for any mistake during granite cutting. Franke reserves the right to alter models, prices and specification without any prior notice.

TECHNOLOGY IN STAINLESS STEEL SINKS

A world leader in the production of sinks, Franke offers a unique range of products comprising models at the very pinnacle of functionality and design, complete with various accessories that epitomize practicality and efficiency.

Exclusive treatments: To further improve the quality of the steel, enhance the sheen and increase its resistance to wear, Franke carries out exclusive brushing and polishing treatments. The treatment, applied to hobs and sinks alike, also enhances the visual aspect of each solution.

Years of research and experimentation have allowed Franke to guarantee the use of premium quality raw materials and the creation of excellent finished products in terms of: form and function; ease of use and total safety; water and energy savings with environmental protection in mind.

Only The Best Steel:

Franke luxury collection offers AISI 304 18/10 steel for the manufacture of its sinks. This stainless steel is highly resistant to rust and to the aggressive action of acids and chemical products.

Differentiated Solutions:

Franke offers built-in, under-top and top-flush solutions to satisfy all sink integration requirements while enhancing visual appeal and practicality.

TECHNOLOGY IN STAINLESS STEEL SINKS

Innovative Steel: Franke has always been committed to researching innovative material combining beauty, quality and performance.

Satin Finish Steel: Franke enhances its durable and flexible steel with an exclusive non-scratch satin finish for lasting elegance and practicality.

Decor And Microdecor Steel: Designed to protect from scratches, abrasion and corrosive agents, Franke patented Decor and Microdecor finishes create a stunning aluminum effect, enhancing shapes and emphasizing the elegance of each design.

Rules for keeping steel in perfect condition:

Stainless steel is easy to clean and extremely hygienic. In fact, its smooth, non-porous surface makes it difficult for bacteria and micro-organisms to survive. The best way of caring for steel, to keep it bright and shiny and prevent scratches or unsightly marks, is to follow these few simple rules:

- The first time you use it, take extra care when treating and rinsing the surface, to avoid contact with aggressive detergents and prevent ferrous substances in the pipes from being deposited
- Always use cleaning products specifically formulated for stainless steel and do not use detergents containing chlorine, bleach, hydrochloric acid or limescale removal agents
- When cleaning, use soft cloths and not abrasive sponges or metal scourers
- Always rinse thoroughly
- Never leave wet sponges or utensils containing iron on the surface for long periods of time
- Only store containers of detergent or acidic chemical products under the sink once they have been closed

BOX - European Satin Finish

INSTALL PERFECTION IN A MOMENT

A Red Dot award-winner for best-in-class design, the Box range of sinks helps you get the job done simply and with style.

- Easy to install as a built-in sink, slimtop or undermount
- Premium quality stainless steel. High stain and corrosion resistance

Features:

R12 mm Radius, Free from sludge deposition.

Seamless Rim with Elegant match to counter top.

Suited for Under Mount also

All Franke stainless steel BOX or Square are sound insulated to reduce the sound of water in the bowl. This is achieved by rubber insulation pads under the sink, or by a sprayed dynaphon layer, applied during manufacturing. The grey dynaphon spray also insulates, minimizing heat escaping from the bowl, keeping water warmer for longer.

KITCHEN FAUCETS

Body Material

Bronze (59-% - 63%), low lead content (0.8 % - 1.6 %) low residue (<1.5%) – gravity casting or low pressure casting.
Most products in the market are sand cased with lots of pinholes and uneven body thickness.

Electroplating

The thickness of the nickel plating is more than international and European standards and more corrosion resistant than others.

Surface chrome plating thickness for Nickel and Chrome

Franke	Nickel > 7.5u	Chrome >0.25 u
International Standard	Nickel > 5 u	Chrome > 0.1u
EN 817 / EN 200		

- Cartridge:** German Ceramic Cartridge and Longer Life.
- Flexible hose:** Spanish S/S 304 exible hose, pressure resistant and corrosion resistant.
- Aerator:** Using top grade Aerator, integrating water saving and water flow.
- Fasteners:** All using Stainless Steel.
- Disclaimer :** Inlet pipes supplied with the product are of standard size, may vary from product to product. Check before purchase if any.

BIO WASTE DISPOSER 0.5 HP/0.75HP/1.25 HP

INTRODUCTION

Franke “Turbo Elite” Waste Disposal Unit is designed to free the kitchen of unsightly and unhygienic household waste and is the essential add-on for ensuring that your kitchen remains looking immaculate.

Thanks to a permanent magnet motor, Franke WDUs reach high speed in a split second, producing more torque per kilo than any other of its type. Whilst running water through the unit, food waste is instantly liquefied into fine particles that are easily flushed through the pipework system.

Includes integrated Air Switch. Includes antibacterial protection for odour control.

This is a slim line model ideal for fitting into 1.5 bowl sinks where space may be limited.

ADVANTAGES

1. MOTOR

Due to the high speed and torque (twisting power) of the permanent magnet motor, most potential jams are eliminated.

A common problem with induction motors is that they have a starting winding and running winding. When the disposer is used improperly, i.e. food waste being deposited before starting the disposer, it is up to the starting winding to overcome the load on the turntable.

This often results in jamming since the starting winding does not have the torque necessary to overcome many jamming situations.

The Permanent Magnet Motor used in the Bio Shield Series disposer reaches full torque on the initial revolution, therefore avoiding the jamming situations as mentioned above.

TORQUE MASTER

Features Balanced turntables and balances armatures as the heart of the system. This along with corrosion proof components provide for less vibration.

2. BIO SHIELD

A Unique Antimicrobial agent is permanently molded into the “Wet” components that helps prevent bacteria-caused odors.

It also inhibits the growth of a wide range of microorganisms.

3. BUILT-IN AIR SWITCH

This model features a Built-In Air Switch Power Option. Turn on your disposer by the power switch or by pushing a button that creates air pressure to turn on disposer. Great option for use with islands.

4. Corrosion Proof

The Number One cause of failure for our competitors’ disposers is corrosion. Corrosion can cause leaks, jams, and allows bigger food particles through holes enlarged by rusting, which can cause clogging of the drain pipes.

Our all “Turbo Elite Series” models have stainless steel metal grinding chamber parts (turntable, swivel impellers, and the grind ring). This makes the Turbo Elite Series disposer corrosion proof.

BIO WASTE DISPOSER 0.5 HP/0.75HP/1.25 HP

Food Waste disposer WDJ50

FUN:	134.0482.020
MRP:	Rs. 14,990/-
Horsepower	0.5 HP
Motor RPM	2600 RPM
Amps	2.25
Motor Type	Permanent
Grinding Ring	CRCA
Swivel Impellers	Stamped SS
Turntable	Stainless Steel
Weight in Kgs	4.23
Type	Manual

Food Waste Disposer TE-75S

FUN:	134.0547.814
MRP:	Rs. 20,990/-
Horsepower	0.75 HP
Motor RPM	2700 RPM
Amps	3.25
Motor Type	Permanent
Grinding Ring	Stainless Steel
Swivel Impellers	Cast SS
Turntable	Stainless Steel
Weight in Kgs	5.23
Type	Air Switch Included

Food Waste Disposer TE125

FUN:	134.0473.237
MRP:	Rs. 24,990/-
Horsepower	1.25 HP
Motor RPM	2700 RPM
Amps	4.5
Motor Type	Permanent
Grinding Ring	Stainless Steel
Swivel Impellers	Cast SS
Turntable	Stainless Steel
Weight in Kgs	7.00
Type	Air Switch Included

Note: FFIPL Offers a Standard warranty of 1 Year from the date of Purchase. Read the user manual carefully before installation.
